#### Summary of Activities During Reporting Period

The COVID-19 pandemic has had severely negative results on the 16<sup>th</sup> District Junior Shooting Sports Program. Post 72 and post 290 continue their programs on a limited bases to maintain COVID recommendations and social distancing guidelines. Other posts have had to suspend their program for now, as the area high schools have suspended their shooting sports programs. Several posts in the District who were considering starting a Junior Shooting Sports Program have put those plans on hold.

Post 72 & 290 continue their limited programs working in conjunction with Civilian Marksmanship Program (CMP), 4-H, and regional league postal and virtual matches. They are looking forward to participating in upcoming CMP Cup matches as well as the American Legion National Postal and CMP National Postal matches.
